Calls for Service

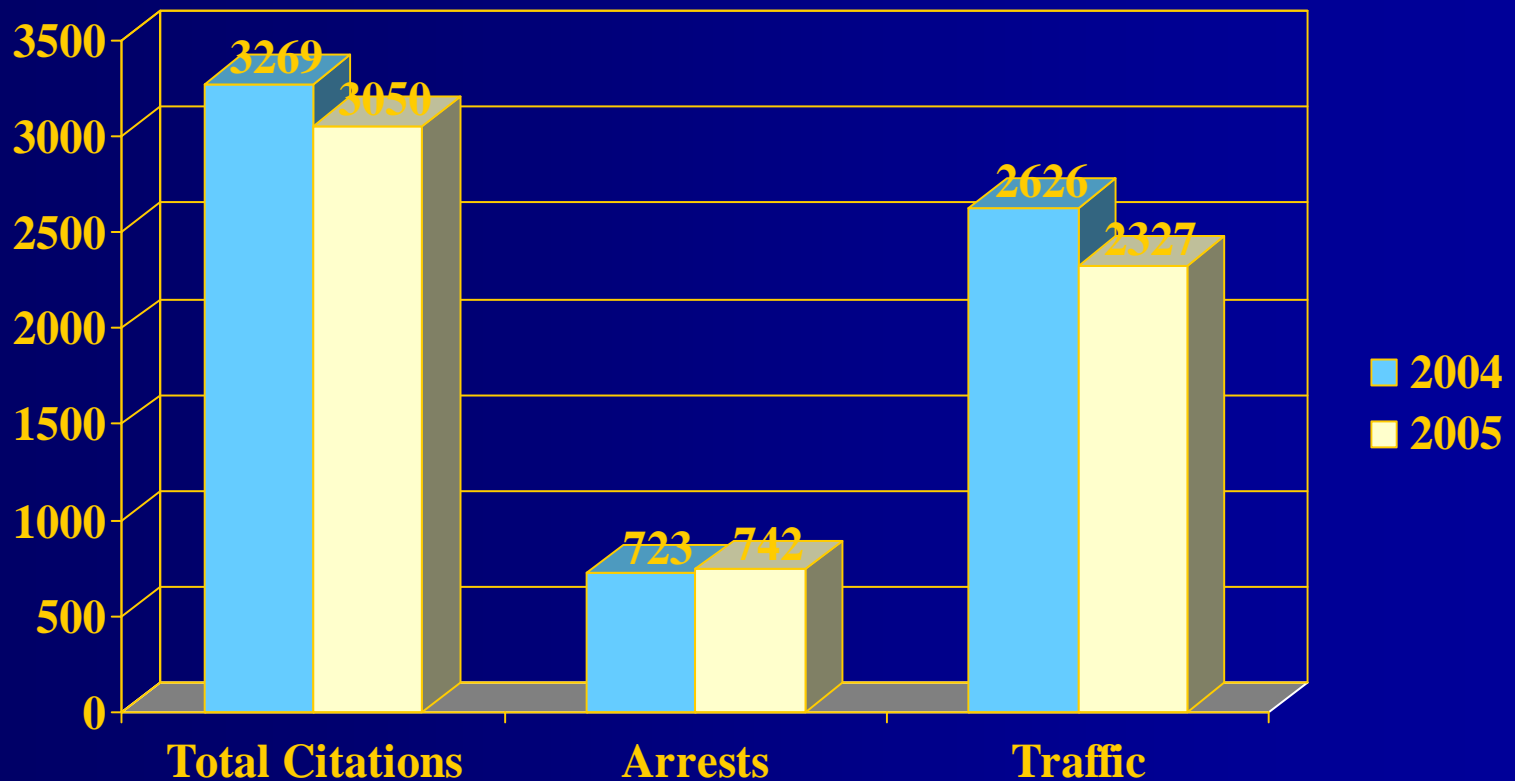

- In 2004 Campbell County Police Department had 17817 calls for service that were either dispatched to the officers, or were the results of their activity. This is a 3% decrease in activity over the 2004 total of 18341 recorded calls for service. A call for service is a recorded activity that officers perform during their shift. An officer making a traffic stop, checking a residence for a vacation check request, or being dispatched to a crime in progress are all examples of a recorded call for service.

Mobile Data Terminals And Mobile Video Cameras

In 2005 Campbell County Police PD was able to install MDT's in all but two of the patrol vehicles. The MDTs are a wireless link that allows officers on patrol to check information through the LINK, CJIS, and NCIC files without having to leave their cruisers or tying up valuable dispatch time. The information that is available to the offices allow the officers to use their time more efficiently and productively.

DocuCam V mobile video cameras were installed in three patrol vehicles. These cameras allow officers to record both audio and video evidence from crime scenes and traffic stops that may be required to successfully present their case to court.
